

Lewy Body Dementia Association Resources

[LBDA's 2026 Community Webinar Series: Insights, Innovations & Everyday Impact:](#)

Infused with the viewpoints of expert clinicians, leaders in the field and real-world perspectives from the LBD community, this series brings together cutting-edge science, compassionate care and the power of the lived-experience. LBDA's 2026 Community Webinar Series is sponsored by GE HealthCare.

[Lewy Learning Center](#): The Lewy Body Dementia Association's Lewy Learning Center is a platform for sharing education on Lewy body dementia (LBD) with the community and healthcare professionals. A go-to place for free, on-demand learning, courses are available to watch any time, share with friends and family members, with unlimited viewing options.

[LBDAtv](#): The YouTube channel for the Lewy Body Dementia Association. You will find excerpted lectures, previous webinars and information pertaining to LBD.

[LBDA Support Services](#): Those living with symptoms or a diagnosis of LBD, care partners and healthcare professionals can connect with LBDA's Support Services staff for guidance, information and resources, and meaningful connections.

- Email: support@lbda.org

[Mediflix](#): "Edu-taining" video streaming platform that helps patients, families and care partners chart the health journey they have ahead. Stream [SPARK: Robin Williams and His Battle with Lewy Body Dementia](#) as well as additional videos and content about LBD on LBDA's Mediflix Channel.

[The U.S. Based DIAMOND Lewy™ Management Toolkit](#): Originally developed in the UK for dissemination via the National Health Service, the U.S. Based DIAMOND Lewy™ Management Toolkit provides a comprehensive overview of the management of the complex symptoms of LBD: sleep, cognition, psychiatric symptoms, autonomic features and motor symptoms.

[Lewy Trial Tracker](#): The Lewy Trial Tracker makes it easy for you to keep up with and participate in the latest LBD research. It is an ongoing, single source of information on LBD related clinical trials and studies highlighting study topics, procedures, locations and contact information.
